

Welcome to the LSC meeting

Peter Saulson

- MAC addresses:
If you want to use wireless, but haven't already submitted your MAC address, please give it to Mike Pedraza.
- And, as always ...
Please give your talk viewgraphs to Linda Turner.
She is offering treats as a reward.

Additional session:

A session of the Advanced Interferometer Configurations Working Group has been organized by David Tanner.

Time: Wednesday 1530

Place: Large Conference Room in this building.

Talks so far:

Diffraction Optics for GW detectors, Bunkowski

Sensing and Control of 40 m, Weinstein for Kawamura

If you want to contribute a talk, please see David Tanner.

NSF Proposals: Reminder and Offer

- To this year's proposers:
NSF Gravity Program proposal target date is
September 29.
- If you will be submitting a proposal for the first time,
or if you have been previously unsuccessful, the LSC
is offering a proposal mentoring service.
Please contact me for details, soon.
