RE: LIGO Review

May I extend my congratulations to you and *everyone* in LIGO for the outstanding review report I heard between 11:00 and 11:45 today. A large number of people have contributed over many years to bring LIGO to its present state. The teamwork that you have instilled in LIGO is paying off very well. The LIGO Review verified for NSF that the project was in as good a shape as it could be, the team is knowledgeable and understands the remaining challenges, and is working the important problems in a very satisfactory way. You and all your colleagues on LIGO are to be congratulated.
