

Statement of Work

C-1202755-v1

1.0 Scope (LIGO Optical Levers)

This Statement of Work is for the fabrication of sheet metal enclosures for the ITM, ETM, PR3, and SR3 Optical Lever Pylon transmitter pylons as well as the HAM table and Beam Splitter optical lever transceivers. These enclosures will bolt to the optical lever mounting plates on the top of the pylons or on the platforms in the case of the beam splitter optical levers. These enclosures isolate and protect the mechanisms and electronics contained inside.

2.0 Document Access

Many supplemental documents and specifications are incorporated into and made a part this Statement of Work. Click on the document links to access these documents from the LIGO Document Control Center (DCC) or go on line to the LIGO Public DCC at <https://dcc.ligo.org/> to access the DCC#.

3.0 Commercial Terms and Applicable LIGO Specifications:

Note: The documents listed below are invoked for this Statement of Work and comprise additional requirements which are integral to this Statement of Work.

- [LIGO-C080185-v1](#) LIGO Commercial Items or Services Contract General Provisions
- [LIGO-Q0900001-v5](#) Advanced LIGO Supplier Quality Requirements
- [LIGO-Q1100003-v1](#) Acceptable Quality Level (AQL) for Inspection of LIGO Components

4.0 Quality System:

Referring to the above referenced LIGO Specification Q0900001, Suppliers should include a copy of their current ISO 9001, AS9100, or TS16949 certification in their bid package. Suppliers lacking current certification should send a copy of their Quality Manual with their bid package.

5.0 Parts/Assemblies to be manufactured, Quantity Required, and Inspection requirements:

Note: refer to Section 8.0 for delivery schedule and location

Drawing #	Part Description	Total Qty:	AQL number (Inspection Frequency)
LIGO-D1200463-v1	aLIGO, AOS, OpLev Xcvr Pylon Enclosure Assy.	15	10
LIGO-D1100209-v2	aLIGO, AOS, OpLev Xmtr Pylon Enclosure Assy.	18	6.5

Note: refer to [LIGO-Q1100003-v1](#) for the AQL table.

Table 1

6.0 Manufacturing:

6.1 Requirements:

Suppliers must refer to the LIGO Specifications referenced in Section 3 for additional, and in some cases, non-industry standard requirements.

6.2 Sub-Contracted Work:

- LIGO expects that at least 2/3 (by dollar value) of the contracted work be performed by the Supplier named on the Purchase Order. The Supplier shall be responsible for all sub-contracted work.

6.3 Precedence:

The drawings typically represent the finished part as needed for use in service. There may be requirements on the drawing (such as coatings) which are specifically defined as not the responsibility of the supplier in this SOW. Suppliers should always contact a LIGO representative to resolve any discrepancies uncertainties in the documentation or instructions.

6.4 Special Instructions: none

7.0 End Item Data Package:

Before delivery of the parts, the Supplier shall provide the following data, as a minimum:

- Any as-built modifications (with approval of the LIGO Contracting Officer) as mark-ups to the drawings
- Material certifications
- Inspection reports of all dimensional features for the number of parts specified per the AQL number and referenced in the AQL table [LIGO-Q1100003-v1](#) and any other inspection requirements detailed in Section 5 of this SOW
- Certificate of compliance for each part number stating conformance to contract and drawing requirements

8.0 Delivery Requirements:

8.1 Shipping Containers and Packaging:

The contractor is responsible for providing shipping containers and transportation which protects these parts from damage from the transportation environment (weather, handling, accidents, etc.). Mating edges of parts should be especially protected from damage during shipping.

8.2 Shipping Destination(s):

The deliveries are FOB at these destinations, i.e. the Supplier has the responsibility for shipping title and control of goods until they are delivered and the transportation has been completed. The contractor selects the carrier and is responsible for the risk of transportation and for filing claims for loss or damage.

These items will be shipped to:

LIGO Livingston Observatory (LLO)

Attn: Chris Guido / Mike Vargas
 19100 LIGO Lane
 Livingston, LA 70754

LIGO Hanford Observatory (LHO)

Attn: Thomas Vo / Terry Santini
 127124 North Route 10
 Richland, WA 99354

8.3 Delivery Schedule:

Item Num	Drawing Number	Description	ASSEMBLY "D" NUMBER COMPONENTS BOM	ASSEMBLY DELIVERY QUANTITIES & SCHEDULE	
				LIGO Hanford, WA	LIGO Livingston, LA
				July 2, 2012	July 16, 2012
1	D1200463-v1	OpLev Xcvr Enclosure Assy.	D1200463-101 D1200463-102 D1200463-103	10	5
2	D1100209-v2	OpLev Xmtr Enclosure Assy.	D1100209-101 D1100209-102 D1100209-103	12	6
